

Effective July 16, 2020, **ALL** high school athletics activities (**both on-campus and off-campus**) are paused for the time being. This is a district-wide decision that in no way is a punitive one. Due to growing exposure incidences within our community, we are pausing all activities for the next two-plus weeks. So here it is in summary:

- This decision was not made due to a failure or breakdown in our current phase implementation.
- This decision affects all high school activities at all PSD schools.
- Further information will be coming from the Madeline Noblett, PSD Executive Director of Communications by the end of today.
- Our tentative return date is Monday, August 3, 2020
- The intent of this directive is to eliminate all in-person contact with your athletes. Please do not encourage any gatherings during this period amongst your teams, on or off school grounds.
